Subject: Coal mining questions

From SP reporter

I was putting together a list of coal lease approvals on public land that have happened since the moratorium was lifted for an article and was wondering if you could confirm this list?

*Arch West Elk
Signal Peak Bull Mountains - approved but challenged in court
GCC King II*

Are there any I'm missing here? I know a few more are in the works (i think those below in italics are for sure in the works, but the others I'm unclear whether they are on public land or currently approved or what)

(b) (5)

Others?
